Notice of Extraordinary Loss Due to Impairment Accounting

Veritas In Silico Inc. (Headquarters: Shinagawa-ku, Tokyo; Representative: Shingo NAKAMURA, Representative Director and CEO, hereinafter referred to as "the Company") announces that an Extraordinary loss is going to be accounted in the financial results for the first quarter of the fiscal year ending December 2026, as detailed below, due to impairment accounting.

● Details of Extraordinary Loss: "Impairment Loss"

Following an assessment of the future recoverability of tangible assets acquired by the Company during the first quarter closing, conducted in accordance with Japanese GAAP concerning the impairment of fixed assets, it has been determined to account an Impairment loss. Consequently, an extraordinary loss totaling 135,520 thousand Yen for "Impairment Loss" will be recorded in the first quarter financial results.

● Projections of the Impact on Financial Condition and Business Performance

As a result of the impairment accounting, Business Performance for the period of the first quarter of fiscal year ending December 2026 will decrease due to the accounting of the Impairment loss. However, given the potential for its impact to be offset by Business revenues anticipated after second quarter onwards within the fiscal year 2026, Financial forecasts for the fiscal year ending December 2026, announced on February 12, 2026, remain unchanged at this time. While the book value of Tangible assets and Intangible assets of the Company shall decrease, the impact on the Company's overall assets shall be anticipated to be limited.

In case any matters requiring disclosure arise in the future, they will be promptly disclosed.
